Obtaining a Home Blood Pressure Monitor for Members with Hypertension

Information for providers in the Medicaid and MyCare Ohio networks

When providers want to obtain a Blood Pressure (BP) monitor for a member to utilize between office appointments, a prescription is needed with the following information:

- Member demographics (name, date of birth, address)
- Diagnosis
- Cuff size (standard or extra-large)
- Molina ID number
- Physician signature, NPI number and office phone number
- Date

The prescription for the BP monitor will be filled by a Durable Medical Equipment (DME) company. Depending on the DME company chosen, the prescription can be faxed, called in or the member can take the prescription to the DME location. For telephone orders a prescription will be faxed to the provider to sign and fax back.

The DME company will either ship the BP monitor to the member’s home, or the member will be required to pick up the equipment at the DME location.

For assistance with locating a DME company in the selected area, reach out to Molina Member Services at (800) 642-4168 for Medicaid, or (855) 665-4623 for MyCare Ohio.

After the last covered date on a Molina-issued Notice of Medicare Non-Coverage (NOMNC) providers must:

- Issue a complete NOMNC on the correct CMS form
- Deliver the NOMNC to the member and receive a valid signature dated at least two calendar days before the “Service Will End” date
- Fax the signed NOMNC to Molina at (877) 708-2116 within 48 hours

Important Note: Requesting a copy of a NOMNC or missing the patient signature will not extend the coverage period of the authorization.
