CDPH Guidelines for Reopening Practices

This is an advisory notification to Molina Healthcare of California (MHC) network providers regarding resuming California's Deferred and Preventative Health Care services.

As you consider reopening your practice and reengaging with your patients, Molina asks that you please review the guidance from the California Department of Public Health. Some key considerations mentioned in the guidance are:

- Adequacy of PPE supply
- Availability of testing for both patients and staff
- Reviewing patient flow systems and infection control precautions to minimize exposure and spread while caring for both COVID positive and non-COVID patients
- Ability to follow physical distancing guidelines in waiting rooms
- Plus, many more.

Please refer to the link below provided by the California Department of Public Health for additional guidance on reopening your operation:
