MOLINA® HEALTHCARE

Provider Demographic Update on Provider Portal
Information for all network providers

Molina Healthcare has updated the Provider Portal to include a feature that assists providers to report data corrections regarding demographic information. Submittals are limited to one instance per provider at a time.

To update provider information select "Account Tools" on the Provider Portal at https://Provider.MolinaHealthcare.com and under "View/Update Profile" click "Report data change in the Provider Directory: Submit Here."

Behavioral Health (BH) provider types 84 and 95 for Community Mental Health Center (CMHC) and Substance Use Disorder (SUD) agencies will still need to send Molina updates via the CMHC-SUD BH Rendering Provider Template, the universal roster used to report information about the organization as well as practitioners rendering services on behalf of the organization. Email BHProviderServices@MolinaHealthcare.com to request a copy of the template.

Narcan Nasal Administration Coding
Information for all network providers

Effective immediately Healthcare Common Procedure Coding System (HCPCS) code J3490 has been added to the Substance Use Disorder (SUD) benefit package to cover the nasal form of Narcan for provider type 95 and specialties 951 or 953. Providers must also submit both the appropriate National Drug Code (NDC) and dosage on the claim with HCPCS code J3490. The dosage should be reported in the notes section.

Under the BH Redesign, HCPCS code J2310 was the only HCPCS code recognized for Narcan, but this code was intended to only cover the intramuscular form of Narcan. The Ohio Department of Medicaid (ODM) developed HCPCS code J3490 to cover the nasal administration form of Narcan retroactively to Jan. 1, 2018.

ODM will manually price J3490 based on the NDC code and dosage administered. ODM implemented this in the MITS Fee-For-Service claims payment system retroactively effective Jan. 1, 2018. Molina is currently working on making system changes to align with the ODM methodology. Coverage will be retroactively applied for Medicaid members to July 1, 2018 and for MyCare Ohio members to Jan. 1, 2018. Molina will identify previously denied claims and send them for adjustment.

BH Redesign and Integration   Ongoing Assistance
Information for all network providers

- Extension to allow non-par providers to provide services until June 30, 2019
- Extension of the timely claim submission period from 180 days to 365 days through Dec. 31, 2019, for Medicaid managed care

Holding Claims Prior to Submission
Information for all network providers

Molina is requesting that providers do not hold claims. When claims are held they can interfere with Molina's ability to identify and resolve processing issues that can delay claim payment.

A provider should promptly submit claims to Molina for covered services rendered to members. All claims need to be submitted in a form acceptable to and approved by Molina and shall include any and all medical records pertaining to the claim if requested by Molina or otherwise required by Molina's policies and procedures. Claims must be submitted by the provider to Molina within timely filing guidelines after the service has been provided. For assistance in submitting claims, call (855) 322-4079 or reach out to your Molina Provider Services Representative.

New Size   Online Claim Reconsideration File Submission
Information for all network providers

Now available! Molina has increased the file submission size for uploading appeals on the Provider Portal from 20 MB to 125 MB!

Providers can access submission of online claim reconsiderations by completing search by claim number or a general claim search in the Provider Portal. Attachments totaling up to **125 MB** can be included with the reconsideration request.

When completing the request for reconsideration through the Provider Portal, **please include your fax number in order to receive a timely response**. Providers must sign in using the **same email address they utilize for the Provider Portal** to receive the electronic acknowledgment letter in their portal inbox.

Common Billing Errors that Cause Claims to Deny
Information for all network providers

Molina is providing the below information in response to trending common provider billing errors.

1. **Missing primary insurance information:** Medicaid is the payer of last resort. The claim must first be adjudicated by all primary insurers before being submitted to Molina. Refer to the Coordination of Benefits (COB) balancing rules in the "837P – Fee For Service Professional Claims" Companion Guide on the ODM website at http://medicaid.ohio.gov under "Providers," then "Billing" and "HIPAA

[Dependently Licensed and BH Paraprofessional Practitioners in MITS](#) at http://mha.ohio.gov/.

Claims for services between Jan. 1 and June 30, 2018, should NOT include these practitioners' NPIs in the rendering field or claims will deny.

Provider Portal Status for Non Licensed Provider Records

Providers utilizing the Provider Portal will have the option of selecting "Non-Licensed Provider" in the "Rendering Provider" drop down menu of the Claim Status lookup and the Create Claims section of the Claims tab for claims for dates of service (DOS) from January 1 to June 30, 2018. Providers will need to select the "Non-Licensed Provider" status to view claims with a dependent practitioner as the rendering provider for this date range.

Top Denials with Remit Codes

The Ohio Medicaid Managed Care Plans (MCPs) have identified the top denial reasons responsible for the highest volume of denials on BH Redesign claims. View the "[Managed Care Plans Top Denials with Remit Codes](#)" document on our website, under the "Health Resources" tab, under "Behavioral Health Resources" to help identify the remittance code associated with the denial reasons from each Medicaid plan to understand the cause of the denial.

Active Medicaid ID Number

In order to comply with federal rule 42 CFR 438.602, providers are required to have enrolled or applied for enrollment with Ohio Department of Medicaid (ODM) at both the group practice and individual levels by Jan. 1, 2019.

Providers without a Medicaid ID number will need to submit an application to ODM. Enrollment is available through the MITS portal or providers can start the process at https://medicaid.ohio.gov. Contact your Molina Provider Services Representative with questions.

Upon future notice by ODM, Molina will begin denying claims for providers that are not registered and known to the state.

5010 Implementation." Additional information is available in the "MCO Resource Document for CBHC Providers" document on our website.

2. **Invalid/Missing modifier:** A service code modifier or degree level modifier is required for some services per the ODM Provider Manual available at http://bh.medicaid.ohio.gov/manuals. When a claim is submitted with a modifier missing, a corrected claim can be submitted via the Provider Portal or through the Electronic Data Interchange (EDI). See the "MCO Resource Document for CBHC Providers" on our website for additional details.

3. **Invalid diagnosis code for the services:** The claim includes a diagnosis code not allowed in conjunction with the service billed per the ODM grid published on the BH Redesign website at http://bh.medicaid.ohio.gov or has invalid information. It is the responsibility of the provider to make sure the diagnosis code for the date of service is correct. A corrected claim can be submitted via the Provider Portal or through EDI. Please see the MCO Resource Document for CBHC Providers on our website for additional details.

4. **Procedure inappropriate for provider specialty:** The rendering provider's credentials need updated in the Molina claims system to match the ODM rules for the providers allowed to bill the service, or the provider is billing codes outside of the Community Behavioral Health Care (CBHC) contract (e.g., billing Substance Abuse Disorder (SUD) services under Mental Health agency NPI or billing laboratory procedure codes without a laboratory provider contract).

5. **Invalid/Missing information for ordering physician:** Ordering physician (required on all claims for nursing services) requires a DK qualifier. For additional information see the "837P – Fee For Service Professional Claims" Companion Guide on the ODM website under "Providers," then "Billing" and "HIPAA 5010 Implementation."

6. **Individual provider name in the "Billing" or "Pay- to" field:** The following must contain the "Billing" or the "Pay-to" group name instead of the individual provider name or a claim will deny for "Incorrect Remit Address." You may need to discuss this with your clearinghouse for clarity on electronic submission.

   Billing Provider Name - 2010AA
   - Loop 2010AA-NM103 Billing Provider Last or Organizational Name
   - Loop 2010AA-NM109 Billing Provider Identifier (NPI)
   - Loop 2010AA-REF02 Billing Provider Tax Identification Number

   Pay-to Address Name - 2010AB
   - Providers should **only** submit the Pay-to address when the address is different from the billing in 2010AA. Note, providers **cannot** submit a provider name in this loop only the Pay-to address

   Rendering Provider Name - 2310B
   - Loop 2310B-Data is only provided when it's different from loop 2010AA.
   - Loop 2310B-NM103 Rendering Provider Last or Organizational Name

Rendering Providers in Provider Portal

The Molina Provider Portal now has the ability to allow multiple rendering providers per claim.

Example: Jane Smith, RN (NPI 9876543210) and John Jones, RN (NPI 9876543211) each provide two, 15-minute nursing services (H2019) to Betty Brown. The correct way to bill these services is by submitting two detail lines on a single claim.
1. Claim detail one would be: Jane Smith, RN, NPI in rendering provider field: 9876543210, with two units of H2019.
2. Second claim detail would be: John Jones, RN, NPI in rendering provider field: 9876543211, with two units of H2019.

Providers who are not required to individually enroll in Medicaid must leave the rendering provider field blank and detail at the same date of service, same supervisor NPI, same place of service, same provider and other modifiers.
