Claim Type: Professional
Line(s) of Business: Medicaid, MMP/Duals
<p>Description:</p> <p>The Evaluation & Management Services with Injection(s) and Infusion Services Payment Integrity and Recovery Audit Program addresses the reimbursement of Current Procedural Terminology (CPT[®]) and Healthcare Common Procedure Coding System (HCPCS) codes for evaluation and management (E/M) services when billed on the same date of services as therapeutic and diagnostic injection(s) and infusion services.</p> <p>E/M services are not payable when billed on the same date of service, by the same Tax ID and rendering provider specialty as therapeutic and diagnostic injection(s) and infusion services. An exception would be if the E/M service is significant and separately identifiable.</p> <p>Molina will recover reimbursement for any claims previously reimbursed with E/M codes billed on the same date of services as therapeutic and diagnostic injection(s) and infusion codes, when both codes are billed under the same group Tax ID and rendering provider specialty. Molina is currently working to improve claims systems logic to deny reimbursement for current and future claims.</p>
<p>Example Scenarios:</p> <p>CPT codes for Evaluation and Management services billed on the same day as 96360-96379 with the same Tax ID and rendering provider specialty are not reimbursable.</p> <p>Non-facility based codes for evaluation and management (99202-99205, 99212-99215) billed with modifier 25 and codes (96360-96379) are reimbursable.</p>
