

# Provider Newsletter

FOR PASSPORT BY MOLINA HEALTHCARE PROVIDERS

## In this issue

- 1** Availity Essentials is Passport's exclusive provider portal
- 2** Medicare post-acute clinical request form
- 2** 2023 Passport Model of Care provider training
- 3** Enhanced Behavioral Health Toolkit for Providers now available
- 4-16** NCQA notifications
- 16** Clinical policy update highlights from second quarter 2023
- 18** Provider Manual updates
- 20** Quality Corner

# Availity Essentials is Passport's exclusive provider portal

Availity Essentials is Passport's official secure provider portal for traditional (non-atypical) providers. Some of the core features available in Essentials for Passport include eligibility and benefits, attachments, claim status, Smart Claims, overpayments, and Payer Space (view member rosters, submit and check prior authorizations as well as appeal status and appeal/dispute).

Several new features and enhancements have recently been added to Essentials for Passport providers. In case you missed it, check out the latest enhancements that were designed to simplify your workflows and reduce administrative burden:

What's New	How does it benefit me?
<b>Claims corrections</b>	Passport providers now have access to a new claims correction feature from the claim status page. Claims correction allows you to correct and resubmit a paid or denied claim from the claim status response page.
<b>Overpayments</b>	Eliminate mail and fax for faster dispute resolution and ensure overpayment requests are up to date. View the status and details of any claim Passport has identified as an overpayment. Request additional information, dispute or resolve the overpayment.
<b>Patient search</b>	Save time entering patient information for eligibility and benefits inquiries. Enter the patient's member ID or last name, first name and DOB, and select the patient matching the criteria. The information will automatically populate on the request.
<b>Passport Medicare now included in Passport Payer Option</b>	Select only one option in the payer field. The Passport Medicare option no longer displays in the payer field. When you select the Passport option for the region, the plan coverage for the member includes Dual-Eligible, Marketplace, Medicare and Medicaid.

## Not registered with Availity Essentials?

If your organization is not yet registered for Availity Essentials and you're responsible for the registration, please visit [Provider.PassportHealthPlan.com](https://Provider.PassportHealthPlan.com) and click the **Register** button.

For registration issues, call Availity Client Services at **(800) AVAILITY (282-4548)**. Assistance is available Monday-Friday 8 a.m. to 8 p.m. ET.

## Dive deeper into Essentials

Once you have your Availity Essentials account, you can learn more about the features and functionality offered for Passport providers. Simply log in > go to **Help & Training > Get Trained** to register for a webinar.

## Medicare Post-Acute Care clinical request form now available

The Medicare Post-Acute Care (PAC) clinical request form has been developed for providers requesting PAC for Passport Medicare members. Passport strongly encourages providers to complete and submit this form for all post-acute patients – including acute inpatient rehab (AIR) – long-term acute care hospitals and sub-acute skilled nursing facilities (SNFs). The form was designed to capture vital discharge planning information to help reduce avoidable readmissions. All Medicare providers, MMP, FIDE, DSNP, MAPD, etc., should use this form for a PAC request.

Please visit the Medicare website under the **skilled nursing facility** tab.

## 2023 Passport Model of Care provider training

In alignment with requirements from the Centers for Medicaid & Medicare Services (CMS), Passport requires primary care providers (PCPs) and key high-volume specialists, including cardiologists, gastrologists, and psychiatrists, to receive training about Passport's Special Needs Plans (SNP) Model of Care (MOC).

The SNP MOC is the plan for delivering coordinated care and care management to special needs members. Per CMS requirements, managed care organizations (MCOs) are responsible for conducting their own MOC training, which means you may be asked to complete separate trainings by multiple insurers.

MOC training materials and attestation forms are available at [MolinaHealthcare.com/model-of-care-Provider-Training](https://MolinaHealthcare.com/model-of-care-Provider-Training).

The completion date for this year's training is **December 31, 2023**.

If you have any additional questions, please contact your local **Passport Provider Services Representative at (800) 578-0775**.

## Enhanced Behavioral Health Toolkit for providers now available

To support providers in offering best practice behavioral health interventions in the primary care setting, the Behavioral Health (BH) Toolkit for Providers has been updated on the Passport Medicaid provider public website. Our BH Toolkit for providers highlights common conditions that may present in the primary care setting, including recommended standardized screening and assessment tools, interventions, and resources.

The enhanced BH Toolkit includes newly added conditions for consideration and updated resources to support the delivery of best practices and standards of care to this population.

Some of the updates include:

- 1. New!** Addition of the Maternal Mental Health Chapter.
- 2. New!** Addition of the PsychHub access link, information and applicable/supporting PsychHub training opportunities associated with each chapter/topic (on each page).
- 3. Updated:** External resources, population statistics and an overall refresh of clinical standard practices and recommendations.

To access the BH Toolkit for Providers, please visit Kentucky's Passport Medicaid website and click **I am a Healthcare Professional**. You will find the Behavioral Health Toolkit under the **Health Resources** tab, or click [here](#) to be taken directly to the BH Toolkit for Providers page.

## Important Message – Updating provider information

It is important for Passport to keep our provider network information current. Up to date provider information allows Passport to accurately generate provider directories, process claims, and communicate with our network of providers. Providers must notify Passport of any changes, as soon as possible, but at a minimum 30 calendar days in advance of any changes in any Provider information on file with Passport. Changes include, but are not limited to:

- Change in office location(s)/address, office hours, phone, fax, or email.
- Addition or closure of office location(s).
- Addition of a Provider (within an existing clinic/practice)
- Change in Provider or practice name, Tax ID and/or National Provider Identifier (NPI).
- **Primary Care Providers (PCP) Only:** If your practice opens or closes to new patients
- Change in specialty.
- Any other information that may impact Member access to care.

Providers can make updates through the [CAQH portal](#), or you may submit a full roster that includes the required information above for each health care Provider and/or health care facility in your practice. Providers unable to make updates through the [CAQH portal](#), changes should be submitted on the [Provider Information Update Form](#) located on the Passport website at [PassportHealthPlan.com](#) located in the Provider Forms area.

Send changes to: [Contracting@PassportHealthPlan.com](mailto:Contracting@PassportHealthPlan.com) or fax (833) 529-1081.

Contact your **Provider Services Representative** at (800) 578-0775 if you have questions.

# Practitioner Credentialing Rights: What you need to know

Passport must protect its members by assuring the care they receive is of the highest quality. One protection is assurance that our providers have been credentialed according to the strict standards established by the state regulators and accrediting organizations. Your responsibility, as a Passport provider, includes full disclosure of all issues and timely submission of all credentialing and re-credentialing information.

Passport also has a responsibility to its providers to assure the credentialing

information it reviews is complete and accurate. As a Passport provider, you have the right to:

- Strict confidentiality of all information submitted during the credentialing process
- Nondiscrimination during the credentialing process
- Be notified of information obtained during the credentialing process that varies substantially from what is submitted by you
- Review information submitted from outside primary sources (e.g., malpractice insurance carriers, state licensing boards) to support your credentialing application, except for references, recommendations or other peer-review protected information
- Correct erroneous information
- Be informed of the status of your application upon request by calling the Credentialing Department
- Receive notification of the credentialing decision within 60 days of the committee decision or shorter timeframes as contractually required
- Receive notification of your rights as a provider to appeal an adverse decision made by the committee
- Be informed of the above rights

For further details on all your rights as a Passport provider, please review your **Provider Manual**. You may review the Provider Manual on our website at [PassportHealthPlan.com](https://PassportHealthPlan.com) or please contact your local **Passport Provider Services Representative** at **(800) 578-0775**.

# Passport's Utilization Management

One of the goals of Passport's Utilization Management (UM) department is to render appropriate UM decisions consistent with objective clinical evidence. To achieve this goal, Passport maintains the following guidelines:

- Medical information received by our providers is evaluated by our highly trained UM staff against nationally recognized objective and evidence-based criteria. We also take individual circumstances (at minimum age, comorbidities, complications, progress of treatment, psychosocial situation, and home environment, when applicable) and the local delivery system into account when determining the medical appropriateness of requested health care services.
- Passport's clinical criteria include MCG criteria that are utilized to conduct inpatient review (except when Change Healthcare InterQual® is contractually required); American Society of Addiction Medicine (ASAM) Criteria; National Comprehensive Cancer Network (NCCN); Hayes Directory; applicable Medicaid Guidelines; Molina Clinical Policy (MCP) and Molina Clinical Review (MCR) (developed by designated Corporate Medical Affairs staff in conjunction with Passport physicians serving on the Medical Coverage Guidance Committee); UpToDate; and other nationally recognized criteria including technology assessments and well controlled studies that meet industry standards and Passport policy; and when appropriate, third party (outside) board-certified physician reviewers.
- Passport ensures all criteria used for UM decision-making are available to practitioners upon request. Providers also have access to the MCG Cite for Care Guideline Transparency tool through our [Availity Essentials Portal](#). To obtain a copy of the UM criteria used in the decision-making process, call our **UM Department** at **(800) 578-0775**.
- As the requesting practitioner, you will receive written notification of all UM denial decisions. If you need assistance contacting a medical reviewer about a case, please call the **UM Department** at **(800) 578-0775**.

It is important to remember:

- UM decision-making is based only on the appropriateness of care and service and the existence of coverage.
- Passport does not specifically reward practitioners or other individuals for issuing denials of coverage or care.
- UM decision-makers do not receive financial incentives or other types of compensation to encourage decisions that result in underutilization.
- Practitioners may freely communicate with patients about their treatment, regardless of benefit coverage.
- Medicaid members have the right to a second opinion from a qualified practitioner. If an appropriate practitioner is not available in-network Passport will arrange for a member to obtain a second opinion out of network at no additional cost to the member than if the services were obtained in-network. Passport provides for a second opinion from a qualified in-network practitioner. Members from all Passport lines of business and programs

should refer to their benefit documents (such as Schedule of Benefits and/or Evidence of Coverage) for second opinion coverage benefit details, limitations, and cost-share information. If an appropriate practitioner is not available in-network, prior authorization is required to obtain the second opinion of an out of network provider. Claims for out of network providers that do not have a prior authorization will be denied, unless regulation dictates otherwise. All diagnostic testing, consultations, treatment, and/or surgical procedures must be a benefit under the plan and meet all applicable medical necessity criteria to be covered.

- Some of the most common reasons for a delay or denial of a request include:
  - Insufficient or missing clinical information to provide the basis for making the decision
  - Lack of or missing progress notes or illegible documentation

Passport's **UM Department** staff is available for inbound collect or toll-free calls during regular business hours to provide information about the UM process and the authorization of care. If you wish to speak with a member of the UM staff, please call **(800) 578-0775**. You may also fax a question about an UM issue to Passport. The Medical Director is available for more complex medical decision questions and explanations of medical necessity denials.

Passport offers the ability to quickly and conveniently submit and status check prior authorization (PA) through our provider portal available at: [Availity Essentials Portal](#).

#### **Passport PA fax numbers include:**

- Medicaid Medical/Behavioral Health Authorization: **(833) 454-0641**
- Medical Pharmacy Authorization: **(844) 802-1406**
- Advanced Imaging: **(877) 731-7218**
- Transplant: **(877) 813-1206**
- New Century Health: **(877) 622-6879**
- Progeny: **(888) 821-4630**

Passport's regular business hours are Monday – Friday (excluding holidays) 8 a.m.–6 p.m. Voicemail messages and faxes received after regular business hours will be returned the following business day. Passport has language assistance and TDD/TTY services for members with language barriers, members who are deaf or hard of hearing, and members with speech disabilities.

## Case Management

Passport offers you and your patients the opportunity to participate in our Complex Case Management Program. Patients appropriate for this voluntary program are those who have the most complex service needs. This may include your patients with multiple medical conditions, high level of dependence, conditions that require care from multiple specialties, and/or have additional social, psychosocial, psychological, and emotional issues that exacerbate the condition, treatment regime, and/or discharge plan.

The purpose of the Passport Complex Case Management Program is to:

- Conduct a needs assessment of the patient, patient's family, and/or caregiver
- Provide intervention and care coordination services within the benefit structure across the continuum of care
- Empower our patients to optimize their health and level of functioning
- Facilitate access to medically necessary services and ensure they are provided at the appropriate level of care in a timely manner
- Provide a comprehensive and ongoing care plan for continuity of care in coordination with you, your staff, your patient, and the patient's family

If you would like to learn more about this program, speak with a **Complex Case Manager**, and/or refer a patient for an evaluation for this program, please call toll-free **(800) 578-0775**.

### Resources available on Passport's provider website

Featured at [PassportHealthPlan.com](https://PassportHealthPlan.com):

- Clinical Practice and Preventive Health Guidelines
- Health Management Programs
- Quality Improvement Programs
- Member Rights & Responsibilities
- Privacy Notices
- Provider Manual
- Current Formulary
- Cultural Competency Provider Trainings

If you would like to receive any of the information posted on our website in hard copy, please call (800) 578-0775.

## Translation services

We can provide information in our members' primary language. We can arrange for an interpreter to help you speak with our members in almost any language. We also provide written materials in different languages and formats. If you need an interpreter or written materials in a language other than English, please contact Passport at **(800) 578-0775**. You can also call **TTD/TTY: 711** if a member has a hearing or speech disability.

## Patient safety

Patient safety activities encompass appropriate safety projects and error avoidance for Passport members in collaboration with their primary care providers.

### Safe Clinical Practice

The Passport Patient safety activities address the following:

- Continued information about safe office practices
- Member education; providing support for members to take an active role to reduce the risk of errors in their care
- Member education about safe medication practices
- Cultural competency training
- Improvement in the continuity and coordination of care between providers to avoid miscommunication
- Improvement in the continuity and coordination between sites of care such as hospitals and other facilities to assure timely and accurate communication
- Distribution of research on proven safe clinical practices

Passport also monitors nationally recognized quality index ratings for facilities from:

- Leapfrog Quality Index Ratings ([leapfroggroup.org](https://www.leapfroggroup.org))
- The Joint Commission Quality Check® ([qualitycheck.org](https://www.qualitycheck.org))

Providers can also access the following links for additional information on patient safety:

- The Leapfrog Group ([leapfroggroup.org](https://www.leapfroggroup.org))
- The Joint Commission ([jointcommission.org](https://www.jointcommission.org))

## Care for older adults

Many adults over the age of 65 have co-morbidities that often affect their quality of life. As this population ages, it's not uncommon to see decreased physical function and cognitive ability and an increase in pain. Regular assessment of these additional health aspects can help to ensure this population's needs are appropriately met.

- Advance care planning – Discussion regarding treatment preferences, such as advance directives, should start early before the patient is seriously ill.
- Medication review – All medications the patient is taking should be reviewed, including prescription and over-the-counter medications or herbal therapies.
- Functional status assessment – This can include assessments, such as functional independence or loss of independent performance.
- Pain screening - A screening may comprise of notation of the presence or absence of pain.

Including these components in your standard well care practice for older adults can help to identify ailments that can often go unrecognized and increase their quality of life.

## Hours of operation

Passport requires that providers offer Passport members hours of operation no less than hours offered to commercial members.

## Non-discrimination

All providers who join the Passport provider network must comply with the provisions and guidance set forth by the Department of Health and Human Services (HHS), the Office for Civil Rights (OCR), State law, and Federal program rules which prohibit discrimination. For additional information, please refer to **Medicaid 2023 Member Handbook** located at <https://www.passporthealthplan.com/members/ky/en-us/mem/medicaid/overvw/handbook.aspx>

Additionally, participating providers or contracted medical groups/IPAs may not limit their practices because of a member's medical (physical or mental) condition or the expectation for the need of frequent or high-cost care.

## Member rights and responsibilities

Passport wants to inform its providers about some of the rights and responsibilities of Passport members.

### Passport members have the right to:

- Receive information about Passport, its services, its practitioners and providers, and member rights and responsibilities
- Be treated with respect and recognition of their dignity and their right to privacy
- Help make decisions about their health care
- Participate with practitioners in making decisions about their health care
- A candid discussion of appropriate or medically necessary treatment options for their conditions, regardless of cost or benefit coverage
- Voice complaints or appeals about Passport or the care it provides
- Make recommendations regarding Passport member rights and responsibilities policy

### Passport members have the responsibility to:

- Supply information (to the extent possible) that Passport and its practitioners and providers need to provide care
- Follow plans and instructions for care that they have agreed to with their practitioners
- Understand their health problems and participate in developing mutually agreed-upon treatment goals, to the degree possible
- Keep appointments and be on time (If members are going to be late or cannot keep an appointment, they are instructed to call their practitioner.)

You can find the complete Passport Member Rights and Responsibilities Statement for Kentucky on our website, [PassportHealthPlan.com](https://www.PassportHealthPlan.com). Written copies and more information can be obtained by contacting the **Provider Services Department** at **(800) 578-0775**.

## Population health

### (Health education, disease management, care management, and complex case management)

The tools and services described here are educational support for our members. We may change them at any time as necessary to meet the needs of our members.

Passport offers programs to help our members and their families manage a diagnosed health condition. You as a provider also help us identify members who may benefit from these programs. Members can request to be enrolled or dis-enrolled in these programs. Our programs include:

- Asthma management
- Diabetes management
- High blood pressure management
- Cardiovascular Disease (CVD) management/Congestive Heart Disease
- Chronic Obstructive Pulmonary Disease (COPD) management
- Depression management
- High-Risk Obstetrician-Gynecologists (OB-GYN) Case management
- Transition of Care (ToC)

You can find more information about many of our programs on the Passport website at [PassportHealthPlan.com](https://PassportHealthPlan.com).

If you have additional question about our programs, please call **Provider Services** Department at **(800) 578-0775 (TTY/TDD at 711 Relay)**.

## Quality Improvement Program

Passport's Quality Improvement Program provides the structure and key processes that enable the health plan to carry out our commitment to ongoing improvement in members' health care and service. The Quality Improvement and Health Equity Transformation Committee assists the organization to achieve these goals. It is an evolving program that is responsive to the changing needs of the health plan's customers and the standards established by the medical community, regulatory and accrediting bodies.

### The key quality processes include but are not limited to:

- Implementation of programs and processes to improve members' outcomes and health status
- Collaboration with our contracted provider network to identify relevant care processes, develop tools and design meaningful measurement methodologies for provided care and service
- Evaluation of the effectiveness of programs, interventions, and process improvements and determination of further actions
- Design of effective and value-added interventions
- Continuous monitoring of performance parameters and comparing to performance standards and benchmarks published by national, regional, or state regulators, accrediting organizations, and internal Passport threshold
- Analysis of information and data to identify trends and opportunities, and the appropriateness of care and services
- Oversight and improvement of functions that may be delegated: Claims, UM, and/or Credentialing
- Confirmation of the quality and adequacy of the provider and Health Delivery Organization network through appropriate contracting and credentialing processes

The Quality Improvement Program promotes and fosters accountability of employees, network, and affiliated health personnel for the quality and safety of care and services provided to Passport members.

The effectiveness of Quality Improvement Program activities in producing measurable improvements in the care and service provided to members is evaluated by:

- Organizing multi-disciplinary teams, including clinical experts, to analyze service and process improvement opportunities, determine actions for improvement, and evaluate results
- Tracking the progress of quality activities and goals through appropriate quality committee minutes and reviewing/updating the Quality work plan quarterly
- Revising interventions based on analysis, when indicated
- Evaluating member satisfaction with their experience of care through the Consumer Assessment of Healthcare Providers and Systems (CAHPS®) survey

- Reviewing member satisfaction with their experience with behavioral health services through survey questions and/or evaluation of behavioral health-specific complaints and appeals
- Conducting provider satisfaction surveys with specific questions about the UM process, such as determining the level of satisfaction with getting a service approved, obtaining a referral, and case management
- Evaluating and effectively reducing disparities, improving health outcomes, and providing equitable healthcare to all members. Initiatives are revised and improved to increase effectiveness, address new areas of opportunity, and transform systems.

Passport would like to help you to promote the important care activities you have undertaken in your practices. If you would like to have your projects and programs highlighted on the Passport website, please contact the **Quality Improvement Department** at **(800) 578-0775**.

If you would like more information about our Quality Improvement Program or initiatives and the progress toward meeting quality goals you can visit our website at [PassportHealthPlan.com](https://PassportHealthPlan.com) and access the Health Resources area located on our provider website pages to obtain more information. If you would like to request a paper copy of our documents, please call the Quality Improvement Department at **(800) 578-0775**.

## Standards for medical record documentation

Providing quality care to our members is important; therefore, Passport has established standards for medical record documentation to help assure the highest quality of care. Medical record standards promote quality care through communication, coordination and continuity of care and efficient and effective treatment.

Passport's medical record documentation standards include:

- Medical record content
- Medical record organization
- Information filed in medical records
- Ease of retrieving medical records
- Confidential patient information
- Standards and performance goals for participating providers

Below are commonly accepted standards for documentation in medical records and must be included in each medical record:

- History and physicals
- Allergies and adverse reactions
- Problem list
- Medications
- Documentation of clinical findings and evaluation for each visit
- Preventive services/risk screening

For more information, please call the Quality Department at **(800) 578-0775**.

## Preventive Health Guidelines

Preventive Health Guidelines can be beneficial to providers and their patients. Guidelines are based on scientific evidence, review of the medical literature, or appropriately established authority, as cited. All recommendations are based on published consensus guidelines and do not favor any particular treatment based solely on cost considerations.

These guidelines are meant to recommend a standard level of care and do not preclude the delivery of additional preventive services depending on the individual needs of the patient.

You can also view all guidelines at [PassportHealthPlan.com](https://PassportHealthPlan.com) by accessing the Health Resources section within our provider webpages. To request printed copies of **Preventive Health Guidelines**, please contact **Provider Services** at **(800) 578-0775**.

## Clinical Practice Guidelines

Clinical Practice Guidelines are based on scientific evidence, review of the medical literature, or appropriately established authority, as cited. All recommendations are based on published consensus guidelines and do not favor any particular treatment based solely on cost considerations. The care recommendations are suggested as guides for making clinical decisions. Clinicians and their patients must work together to develop individual treatment plans that are tailored to the specific needs and circumstances of each patient.

Passport has adopted the following Clinical Practice and Behavioral Health Guidelines, which include but are not limited to:

- Acute Stress and Post-Traumatic Stress Disorder (PTSD)
- Anxiety/Panic Disorder
- Asthma
- Attention Deficit Hyperactivity Disorder (ADHD)
- Autism
- Bipolar Disorder
- Children with Special Health Care Needs
- Chronic Kidney Disease
- Chronic Obstructive Pulmonary Disease
- Depression
- Diabetes
- Heart Failure in Adults
- Homelessness - Special Health Care Needs
- Hypertension
- Obesity
- Opioid Management
- Perinatal Care
- Pregnancy Management
- Schizophrenia
- Sickle Cell Disease
- Substance Abuse Treatment
- Suicide Risk
- Trauma-Informed Primary Care

You can also view all guidelines at [PassportHealthPlan.com](https://PassportHealthPlan.com), in the Health Resources section of the provider webpages. To request a copy of any guideline, please contact Passport's **Provider Services Department** at **(800) 578-0775**.

## Advance Directives

Helping your patients prepare for Advance Directives may not be as hard as you think. Any person 18 years or older can create an Advance Directive. Advance Directives include a living will document and a durable power of attorney document.

A living will is written instruction that explains your patient's wishes regarding health care in the case of a terminal illness or any medical procedures that prolong life. A durable power of attorney names a person to make decisions for your patient if he or she becomes unable to do so.

The following links provide you and your patients with free forms and information to help create an Advance Directive:

- [caringinfo.org](https://caringinfo.org)
- [nlm.nih.gov/medlineplus/advancedirectives.html](https://nlm.nih.gov/medlineplus/advancedirectives.html)

For the living will document, your patient will need two witnesses. For a durable power of attorney document, your patient will need valid notarization.

A patient's Advance Directive must be honored to the fullest extent permitted under law. Providers should discuss Advance Directives and provide appropriate medical advice if the patient desires guidance or assistance, including any objections they may have to a patient directive prior to service whenever possible. In no event may any provider refuse to treat a patient or otherwise discriminate against a patient because the patient has completed an Advance Directive. Patients have the right to file a complaint if they are dissatisfied with the handling of an Advance Directive and/or if there is a failure to comply with Advance Directive instructions.

It is helpful to have materials available for patients to take and review at their convenience. Be sure to put a copy of the completed form in a prominent section of the medical record. The medical record should also document if a patient chooses not to execute an Advance Directive. Let your patients know advance care planning is a part of good health care.

For more on Advance Directive, Medical Power of Attorney, and Living Will, go [here](#) or [here](#).

## Behavioral Health

Primary care providers (PCPs) provide outpatient behavioral health services within the scope of their practice and are responsible for coordinating members' physical and behavioral health care.

Behavioral Health services are a direct access benefit and are available with no referral required; however, PCPs are responsible for assisting in coordinating a referral if needed. If you or the member need assistance with obtaining behavioral health services, please contact **Member Services Department** at **(800) 578-0603**. Passport's Nurse Advice Line is also available to members 24 hours a day, seven days a week, 365 days per year for mental health or substance abuse needs. The services Members receive will be confidential.

Providers may refer to the [Passport Behavioral Health Toolkit for Providers](#) on the [PassportHealthPlan.com](#) public website for additional clinical guidance, recommendations, and trainings/education opportunities related to behavioral health conditions. Providers can locate the Behavioral Health Toolkit for Providers under the Health Resources tab at [PassportHealthPlan.com](#).

## Care coordination & transitions

### Coordination of care during planned and unplanned transitions for Passport members

Passport is dedicated to providing quality care for our members during planned or unplanned transitions. A transition is when members move from one setting to another, such as when a Passport member is discharged from a hospital. By working together with providers, Passport makes a special effort to coordinate care during transitions. This coordination of specific aspects of the member's transition is performed to avoid potential adverse outcomes.

To ease the challenge of coordinating patient care, Passport has resources to assist you. Our staff, including nurses, are available to work with all parties to ensure appropriate care.

To appropriately coordinate care, Passport will need the following information in writing from the facility within one business day of the transition from one setting to another:

- Discharge plan when the member is transferred to another setting
- A copy of the member's discharge instructions when discharged to home

### This information should be faxed to Passport at:

- UM Department: (833) 454-0641
- Care Management: (800) 983-9160

## Health appraisal and self-management tools

Passport provides a Health Appraisal for members on the My Molina member portal. Our members are asked questions about their health and health behaviors and receive a report about possible health risks. A Self-Management Tool is also available to offer guidance for weight management, depression, financial wellness, and various other topics. Passport members can access these tools on [MyMolina.com](#).

## Clinical policy update highlights from second quarter 2023

Molina Clinical Policies (MCPs) are located at [MolinaClinicalPolicy.com](#). The policies are used by providers, medical directors and internal reviewers to make medical necessity determinations. MCPs are reviewed annually and approved bimonthly by the Molina Clinical Policy Committee (MCPC).

### The following new policies were approved:

- MCP-432: Developmental Testing
- MCP-700: Foot Surgery: Bunionectomy
- MCP-701: Foot Surgery: Hallux Rigidus

- MCP-702: Foot Surgery: Lesser Toe Deformities (Hammer, Mallet, and Claw Toe)
- MCP-434: Non-Emergent Air Ambulance Transport
- MCP-430: Responsive Neurostimulation for the Treatment of Refractory Partial Epilepsy (NeuroPace®)
- MCP-431: Sclerotherapy

### The following policies were revised:

- **MCP-067: Back Braces**
  - Revision to coverage limitations and exclusions to remove “Management of preoperative or postoperative spinal fusion surgery” and “Treatment of spinal burst fractures with or without neurological deficits.”
- **MCP-204: Blepharoplasty**
  - Policy reviewed, added clarification that visual field testing is not necessary for children ages 12 and under (for upper eyelid blepharoptosis repair).
- **MCP-315: Breast Implant Removal**
  - Policy reviewed, included indication for BIA-SCC, updated Summary of Medical Evidence section.
- **MCP-041: Cranial Orthotic Devices**
  - Revision to criteria #3a from “> 10-12mm” to “>12mm” to remove ambiguity.
- **MCP-051: Genetic Testing**
  - Policy reviewed, clarified hierarchy of policy utilization, change in coverage requirements to allow practitioners within their scope practice and to allow 2 published studies (vs. 3) to establish phenotype/genotypic alignment. Clarification of verbiage and coding.
- **MCP-050: Hyperbaric Oxygen Therapy and Topical Oxygen Therapy**
  - Coverage criteria updated to include initial authorization of up to 20 sessions with prior authorization being required for additional sessions. Updated Overview, Summary of Medical Evidence, and References.
- **MCP-409: Occupational Therapy**
  - Criteria wording updated for clarification and included information regarding re- evaluations, discharge and discontinuation of therapy.
- **MCP-402: Plantar Fasciitis Surgery**
  - Revised coverage criteria #3 from “exclude” to “include” and added note on heel spurs.
  - Updated Overview, Summary of Medical Evidence, Coding & Billing, and References.
- **MCP-412: Prescription Digital Therapeutics**
  - Added RelieVRx, the first VR device designated as an DME and HCPCS Level II code E1905 (Virtual reality cognitive behavior therapy device [CBT], including pre-programmed therapy software).

- **MCP-357: Skin Substitutes**
  - Previously named “Skin Substitutes for Chronic Wound Healing Outpatient.” Removed “for chronic wounds” as chronicity does not apply to burn wounds.
  - Removed line of business-specific criteria.
  - Removed criteria requiring failed standard treatment for burn wounds.
  - Duration of failed treatment required prior to EpiFix updated to four weeks.
  - Updated to clarify EpiFix in sheet form is covered when criteria are met.

**The following policies have been retired and are no longer available on the website:**

- **MCP-401: Foot Surgery Guidelines for Deformities of the Toes (Bunion, Hammertoe, Hallux Rigidus)**

## Provider Manual updates

The Provider Manual is customarily updated annually but may be updated more frequently as needed. Providers can access the most current **Provider Manual** [here](#).

Passport partners with New Century Health to administer cardiology and oncology services for members age 18+. For clinical policies related to cardiology and oncology, please visit New Century’s website [NewCenturyHealth.com](https://www.newcenturyhealth.com) or click the following link: [Compliance and Regulatory Information - New Century Health](#). Clinical policies are also housed within the provider portal at [my.newcenturyhealth.com](https://my.newcenturyhealth.com).

**The following cardiology and oncology policies were approved:**

- **UM ONC-1445: Topical and Intralesional Therapies**
- **UM ONC-1463: Pluvicto (lutetium Lu 177)**
- **UM ONC-1324: Kymriah (tisagenlecleucel)**
- **UM ONC-1218: Provenge (sipuleucel-T)**
- **UM Cardio-1169: Catheter Based Carotid Artery Digital Angio**
- **UM Cardio-1252: Endovascular Venous Laster-Radiofrequency Ablation**
- **UM Cardio-1294: Renal Artery Intervention**

- **UM Cardio-1292: Coronary Intravascular Arterial Ultrasound**
- **UM Cardio-1269: Coronary Fractional Flow Reserve**
- **UM Cardio-1255: Lower Extremity Venous Stab phlebectomy**
- **UM Cardio-1254: Lower Extremity Venous Sclerotherapy**
- **UM Cardio-1253: Lower Extremity Venous Stripping Ligation**
- **UM Cardio-1252: Endovascular Venous Laser-Radiofrequency Ablation**
- **UM Cardio-1174: Endovascular Tibioperoneal Interventions**
- **UM Cardio-1173: Endovascular Femoropopliteal Interventions**
- **UM Cardio-1172: Endovascular Iliac Interventions**
- **UM Cardio-1170: Abd Aortography Plus Bilateral Iliofemoral Extremity Runoff**
- **UM Cardio-1127: Diagnostic Heart Catheterization**
- **UM Cardio-1126: Abdominal Aortic Ultrasound**
- **UM Cardio-1125: Renal Retroperitoneal Vascular Duplex Ultrasound**
- **UM Cardio-1124: Positron Emission Tomography PET Myocardial Imaging**
- **UM Cardio-1123: Stress Echocardiography**
- **UM Cardio-1122: Transesophageal Echocardiography**
- **UM Cardio-1121: Transthoracic Echocardiography**
- **UM Cardio-1120: Radionuclide Angiogram (MUGA)**
- **UM Cardio-1119: Pharmacological Nuclear Stress Test-Myocardial Perfusion Imaging**
- **UM Cardio-1115: Coronary Computed Tomographic Angiography**
- **UM Cardio-1094: Percutaneous Coronary Intervention**
- **UM Cardio-1093: Venous Duplex**
- **UM Cardio-1085: Patient Activated Event Recorder**
- **UM Cardio-1084: Myocardial Perfusion Imaging-Exercise Nuclear Stress Testing**
- **UM Cardio-1083: Vessel Mapping for Hemodialysis or CABG PAD Surgery**
- **UM Cardio-1082: Ambulatory EKG Monitoring**
- **UM Cardio-1081: Carotid Duplex**
- **UM Cardio-1979: Duplex Scan of Hemodialysis Access**
- **UM Cardio-1078: Ankle Brachial Index**
- **UM Cardio-1077: Arterial PVR and Stress Arterial PVR**
- **UM Cardio-1076: Arterial Duplex**

## Payment Policy update Highlights from Q3

Passport routinely reviews our policies to ensure compliance with regulations and correct provider billing and reimbursement guidelines. All payment policies for Passport – Medicaid can be found on our website at [PassportHealthPlan.com](https://PassportHealthPlan.com), click on health care professionals, or by clicking [here](#).

### The following new policies were approved:

- DRG Clinical Validation
- Early Elective Delivery
- Intensive Outpatient Therapy for Substance Use Disorder (H0015)
- Newborn and NICU
- Outpatient Definitive and Presumptive Drug Testing

- Self Help/Peer Support (H0038)
- Therapeutic Behavioral Health Services (H2019/H2020)
- Treatment Plan Development (H0032/T1007)

## Ask the pharmacist for a school supply of medications

Passport provides a school supply of medications that are lifesaving or need to be administered during the school day at no extra cost for children under 18. This can be helpful to children who need to keep a rescue inhaler or an epinephrine product close by or need dosing of medications multiple times a day that fall within school hours.

To get this benefit for our members, prescribers should request the pharmacy to “dispense an extra supply for school” on the prescription. The pharmacy will request a “school supply override” from the **MedImpact Contact Center** by calling **(800) 210-7628**.

This benefit is to be utilized for the safe and effective use of medications for children and will be up to the discretion of the pharmacist to honor. Any indication of inappropriate use may lead to the refusal of providing a school supply.

## Quality corner

### Well-child exams and maternal mental health

While an obstetrician should assess for maternal stress, depression, and anxiety at the comprehensive postpartum visit, a single screening approach is insufficient to address the protracted time in which postpartum mental health symptoms can arise. This leaves many mothers at risk of falling through the cracks and not receiving the support and care they need.

Fortunately, American Academy of Pediatrics recommends routine screening for postpartum depression in mothers during well-child visits at 1, 2, 4, and 6 months of age.

Medicaid supports this approach to care for the mother-infant dyad through the Early and Periodic Diagnostic and Treatment (EPSDT) benefit.

Passport providers can bill 96161 for postpartum screening administered to the caregiver during a routine well-child exam. This is considered an add-on code and therefore no modifier is needed to bill in addition to the well-child exam. Partners are also at increased risk for depression and anxiety through the child’s first birthday. Providers are encouraged to be aware of the potential impact of partner mental health on the mother-infant dyad as well.

When screening indicates need for follow-up services, providers should coordinate care for the mother and/or partner/caregiver, including but not limited to, referring the parent to their own PCP for care, confirming current engagement with or referring to a behavioral health provider, and providing additional resources, such as the Suicide and Crisis Hotline number 988.

Passport members who need assistance finding a behavioral health provider can call Member Services at **(800) 578-0603** (TTY: 711).

## 2022 Diabetes sweepstakes highlights; 2023 details

Diabetic retinopathy is the number one cause of blindness among working-age adults. Even though 95% of vision loss cases are preventable with early detection and treatment, only about half of patients with diabetes visit the eye specialist for annual retinal exams.

As part of our efforts to improve diabetic care, in 2022, we offered qualified providers the opportunity to win a **RetinaVue camera** to provide in-office diabetic retinal eye exams.

Passport is excited to announce that five lucky provider groups won a handheld **RetinaVue camera** valued at \$10,995 in May of 2023.

### **KPCA Park Duvalle Community Health Center** **Stephanie Jacobs**

Director of Clinical Operations

*“On behalf of Park Duvalle Community Health Center, I am excitedly confirming the receipt of the Passport RetinaVue Camera. Our goal with the camera will be to utilize and encourage the frequency of eye exams for our diabetic patients. We are anticipating this will help us to improve our patient performance, close care gaps, and increase compliance gaps with our patients. Our providers are overly excited about this opportunity and are looking forward to using this sophisticated device. Thanks so much for this opportunity.”*

### **KPCA Shawnee Christian Healthcare Center** **Shawnice Whitfield**

Director of Quality & Risk Management

*“Thank you for rewarding Shawnee Christian Healthcare Center the RetinaVue camera. We are grateful for this opportunity and will acknowledge this in our next board meeting. This prize will support our providers in performing diabetic retinal exams, improving our A1c reports, providing better care to our community, and making a change for our patients. This generous prize will support grants, technology, and improvement in our workflow. You are supporting a high-quality care to our patients. Lastly, thank you again for making a difference with this prize to Shawnee Christian Healthcare Center. We truly appreciate it.”*

### KPCA Cumberland Family Medical Centers

**Heather Bennett**

Director of Quality

*“We are so appreciative for the camera, and this opportunity to provide this added service for our patients.”*

### KPCA Primary Care Centers of Eastern KY- Hazard

**Carrie Campbell**

Director of Quality

*“We truly appreciate this wonderful opportunity from Passport on winning The Retina Vue camera for PCCEK, this will assist our diabetes department staff for the needed Eye Exams for our Diabetic patients.”*

### APCP Amins Family Practice Associates

**Jayshree Amin**

Office Administrator

*“This is great. Thank you so much. We had been renting one and paying \$1,000 a month. Now that will be funds we can use in other areas.”*

Passport is offering a similar provider diabetes sweepstakes again for 2023. Please click the links below for details.

## Start HPV at 9: A follow-up story

By Jessica K. Beal, Psy.D.  
Program Director, Healthcare Services

In 2023 Passport officially launched its “Start at 9!” focus for HPV vaccinations, and we have been highlighting it through written materials to providers and members as well as in conversations with providers. As the EPSDT Coordinator for Passport, I have the privilege of speaking with pediatric providers across the state every quarter to learn how they feel about our initiatives.

Improving health outcomes for our EPSDT members is a collaborative effort. I am so grateful for these visits with you all and your willingness to give feedback, convey any barriers you see to our goals, and share your best practices tips. What I didn’t expect to hear last quarter was a provider story that poignantly reminded me of the multiple levels of value of timely vaccination and he was gracious enough to let me share it in our newsletter.

*“While Dr. Khattab always offered the HPV vaccination to his patients, it was an afterhours call from a frantic father that brought into new focus how valuable his offerings were. The father of a long-time patient called desperate for affirmation that his daughter had indeed received her timely HPV vaccination as part of their diligently attended annual well exams. She was now 18 years old and had just received an abnormal pap smear result. She was scared. Her parents were scared.*

*“As a physician, Dr. Khattab knew that the test could be a false positive, but the family needed reassurance grounded in science. He took the time to pull her chart and was able to give them the good news: she had indeed completed her HPV vaccine series. At the other end of the phone, the father’s relief was palpable. Parental adherence to preventive care and Dr. Khattab’s adherence to best practice of offering on-time administration of vaccines took away the waiting game nightmare and replaced worry with instant relief.*

*“Timely vaccination can make all the difference in the health and peace of mind of patients and families.”*

My thanks to all the providers ensuring that our shared patients/members get the best of care.
