A fax bulletin from Molina Healthcare of Michigan (MHM) • January 6, 2022

Blood Pressure Cuff Coverage Information

To facilitate patient access to home blood pressure cuffs and understanding of cuff coverage benefits, the Michigan Department of Health and Human Services (MDHHS) has created a Medicaid home blood pressure cuff coverage grid. The grid can be used by providers to check inclusion criteria, preauthorization requirements, and special instructions specific to each managed care plan prior to prescribing blood pressure cuffs to patients with hypertension for blood pressure self-monitoring.

The blood pressure cuff monitoring grid and an overview of MDHHS blood pressure monitoring standards are included with this communication on pages 2 and 3, respectively.

NOTE:

FOR MOLINA, NO PRIOR AUTHORIZATION IS REQUIRED FOR BLOOD PRESSURE CUFFS IF SUPPLIED BY AN IN-NETWORK DME COMPANY.

Thank you for serving our Molina members!

2.3 BLOOD PRESSURE MONITORING

Definition	Blood pressure monitoring includes manual and automatic blood pressure units.
Standards of Coverage	A manual blood pressure unit may be covered for a beneficiary under the age of 21 when: <ul style="list-style-type: none"> ▪ Daily titration of medications is required for renal disease. ▪ A cardiovascular condition is present that affects blood pressure (e.g., congenital heart disease). ▪ A brain lesion or cancer tumor is present that affects blood pressure. ▪ A medication regimen is present that affects blood pressure.
	Coverage for beneficiaries age 21 and over with uncontrolled blood pressures when one of the following is present: <ul style="list-style-type: none"> ▪ Fluctuation in blood pressure as a result of renal disease. ▪ Medications are titrated based on daily blood pressure readings.
	An automatic blood pressure monitor is covered when: <ul style="list-style-type: none"> ▪ Standards of coverage for a manual unit have been met. ▪ Beneficiary is age 11 or over. ▪ Economic alternatives (such as a manual blood pressure unit) have either been tried or ruled out prior to requesting authorization of an automatic blood pressure monitor.
Documentation	The documentation must be less than 30 days old and include: <ul style="list-style-type: none"> ▪ Diagnosis/medical condition pertaining to the need for the blood pressure monitor. ▪ Complete physician's treatment plan, including current blood pressure medications, frequency of checks, and specific patient protocol in case of an abnormal reading. ▪ The medical reason a manual blood pressure unit cannot be used (for beneficiaries over the age of ten years). ▪ Prescription from a pediatric nephrologist when daily titration of medications is required for renal disease (required for coverage under CSHCS).
PA Requirements	PA is required for all blood pressure units.
Payment Rules	A blood pressure monitor is considered a purchase only item.
